Key

Wall mounted active electric vehicle charging point.
BG Sync 7.4kW Type 2 charger.

Pedestal mounted active electric vehicle charging point.
BG Sync 7.4kW Type 2 charger & stand.

Passive charging provision suitable for future conversion.
To include all necessary underlying infrastructure (e.g. available spare capacity in the connection to the local electricity distribution network and electricity distribution board, as well as cabling to parking spaces together with physical demarcation) to enable simple installation and activation of a charge point at a future date.
