Heritage Statement – SB/ED

20 London Road is Grade ll listed building situated in a road with buildings of a similar age, circa late 18th, early 19th century. It has been sympathetically converted to office space and as the current owners we are fully appreciative of its historical relevance in Horsham.

We are proud to run our business from Horsham town centre and are pleased to say we have a new tenant in our building. To enable them to promote their residency we would like to install a hanging sign to the front of the building, at the same height and size as the current one advertising Royal Aero but at the opposite side.

We have, we believe, created signage which would not in any way devalue the buildings aesthetic quality in the road.

Many thanks

Sandie Brittain
