Application for erection of Company signage Ref; 20 London Road, SB/ED

We are planning to rent out two rooms of our building to Dienn's Law Solicitors and they have requested permission to erect a company sign to the right hand wall by the door and a hanging sign on the left side (facing) of the building, at the same height as the current one for Royal Aero on the right hand side.

As a Grade II Listed Building we are aware of the historic value of our building. We are clear that any company signage must be sympathetic to the design of the building.

The sign on the frontage itself will be :

- brushed aluminium composite
- dimensions of 210mm height and 297mm wide
- digitally printed teal text self adhesive print, cut to shape and applied to the face.
- supplied with drilled corner fixing holes.

The hanging sign will be :

- Brushed aluminium composite (ACM)
- Digitally printed adhesive & Company Logo
- Teal in colour
- Dimensions of 900mm height x 600mm wide x 5mm thick
- The bracket to hold the sign will be 'Street Spandrel'. Wrought iron to match the existing Royal Aero hanging sign, in black matt

We respectfully submit our request for permission to erect this company sign and the hanging sign to the exterior of our building.

Kind regards

Sandie Brittain
