COUNCIL TPO APPLICATION DOCUMENT

TYPE OF APPLICATION: TPO

OUR WORKS REFERENCE: 417329

ADDRESS/LOCATION OF WORKS: Opposite No.3, Oak Close, Storrington, RH20 3PZ

W3W: logbook.breakfast.wire

DESCRIPTION OF WORKS:

Our company (Traffic Control 123 Ltd) work on behalf of Enerveo, cleaning necessary street lights and signs of trees/foliage, so as to allow access for maintenance/repair, as well as to maintain public safety.

We have been instructed to clear the street column located Opposite No.3, Oak Close, Storrington, RH20 3PZ

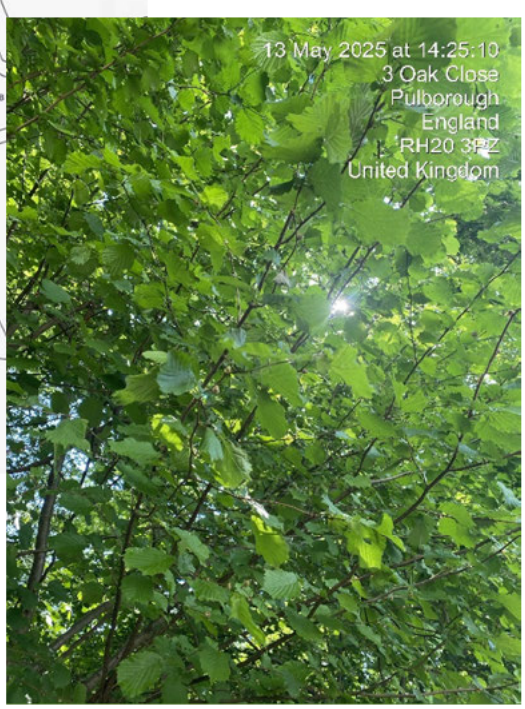
We need to trim the trees surrounding the column, at a 60 degree angle from the light head itself, so that light is able to reach the road below and maintain public safety. We will also need to clear the lighting head by 1m.

I have provided the following details along with site photos taken to highlight the works that are required.

I can see from the council map, that two of the trees we are required to cut, are affected by a TPO. I am therefore applying for permission to cut a small portion of the branches on these trees.

TPO NUMBERS (IF KNOWN): T23 & T24

SPECIES: Hazel



See below red outlined area – tree cutting to take place within this zone, to anything that falls in front of the column itself. This is to maintain sufficient levels of illumination to the road.
