Dear Sir/Madam,

Variation of Condition 20 (Safety Netting Installation) of Planning Permission WSCC/047/21 to allow the concurrent use of the AGP alongside junior cricket

The Forest School Comptons Lane Horsham West Sussex

I refer to the consultation received in this office on 11th September 2024 concerning the above site.

The Boundary Risk Assessment provided sufficient information to support the variation in condition 20 regarding junior cricket. According to the report, no ball strike protection netting is required for junior cricket. The assessment concludes that for junior-level cricket, based on shot velocities of 30 m/s, the recommended mitigation height is 0 meters in all directions. This suggests that junior cricket poses minimal risk of balls surpassing boundaries, and concurrent use of the MUGA with junior cricket should not cause any harm, aligning with the proposed rewording.

This Authority therefore has **no objections** to the principle of the development.

Yours faithfully

Emma Parkes
Head of Development and Building Control
