Subject: RE: DC/25/0412 - Horsham Amateur Boxing Club - Erection of a single storey side extension into existing gym

Hi Emma

Ref Horsham Boxing Club

Horsham Boxing Club currently provide a range of activities for its core membership which include young people and our older population wishing to improve health. At the moment their current facility does not have sufficient capacity to accommodate its existing members within these sessions which means that they either have to run and organise duplicate sessions or split some of the sessions with some participants exercising outside; both of these scenarios have resource implications for the club.

At a recent meeting with the club, which involved two local ward members, the club categorically stated that the application for an extension was to improve facility for its current membership rather than attract new members.

Thanks
Nick

Nick Jenkins
