Address:	3 Flat 29 West Street Horsham

Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Highway Access and Parking - Other - Privacy Light and Noise
Comments:	Hello, While we aprecciate, the architect took time to move the window to different side. It made the issue of privacy even worse. The new position of window is directly over our sky window leading to kids bedroom. On previous design there were 2 windows over our bedroom with new design it makes it 3 windows and the third one

is even closer and has even more direct view into the kids bedroom taking away all privacy.

The issue of lost day light stays. The building will be still elevated by one more storey, taking away day light.

We still have all the other objections as commented on previous versioň The new version has changed only by changing the position of the window. So please refer to all of our previous objections mentioned before (loss of privacy, loss of day light, over development and parking concerns, safety of the adjacent side walk when new occupants will stop there to load and unload).

Thank you for your time

Kind regards
