Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	Just to reassure the parish council , as well as the architect drawings we have had a local planner independently do a heritage report as we want to make sure the house blends in . Unfortunately the house is in a extremely poor state , it needs a new roof , has very extensive damp problems , very inefficient heating system We have created more parking on site , it needs rewiring and complete new heating system The windows are totally inefficient. The waste system is totally inefficient We are keeping the original footprint of the building with some additions . In short , the house needs totally refurbishing to make it a energy efficient family home for us ,we are not developers , we love the area

Kind regards
