Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	<ul style="list-style-type: none">- Highway Access and Parking- Other- Overdevelopment- Trees and Landscaping
Comments:	I object to this application due to Barns Green not needing these houses. It already has a new site still being built in Sumners ponds next door, which these houses haven't all been sold. This

proposed site falls on a road that already sees a lot of traffic for the local shop, pub, getting around the village and passing through traffic, it would be a dangerous spot to put another entrance/junction on to this road that already has problems with people speeding, campsite traffic in peak times (April -October). But more importantly it's a view that all our villagers enjoy whilst walking, dog walking, family trips to the green. The beautiful sunset that makes a person feel good, seeing a field with birds tweeting, swallows swooping round of an early summer's evening is therapy for everyone's mental health. Allowing our children to see the cows and sheep graze on this field is giving our children a knowledge of how the world grows, if this application goes ahead, no one will be able to see that beautiful sunset, with the birds tweeting and the cows grazing, as all human interaction and buildings will remove this and nature is a very big part in human wellbeing for all ages, young or old.

Kind regards
