Signage lightning details

Site Address:
104 Bishopric Horsham RH12 1QN

Client: Collingwood Batchellor

Agent: STAAC Ltd, 5 Chesterton Drive Seaford BN25 3RH

Date: 06.05.2025.

The proposed signage is in the dimensions of 4100x1400mm, in descaled aluminium and with built-up 3D letters, powder-coated satin white, on clear acrylic back trays on locators, with 50mm return illumination.

We will use Mini LEDs in this signage, and they are rated at 25-32 lumens per module.

In total, there will be 403 modules used. Expressed in Lumens that would mean a total of 10,075 Lumens based on the 25 lumens per module. The true Lumen output will be less due to absorption from the interior of the letters and the semi-opaque back tray in each letter. This represents the total illumination for the Collingwood Batchellor store at 104 Bishopric.

Working hours during which the signage would be lit are Monday-Saturday 09:00-17:30, and Sunday 10:00-16:00.
