Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking
Comments:	There are many reasons why I object to the proposed development but the over-riding concern that I have is a safety issue. It seems foolish to me that the proposed road entry to the site should be opposite the village store where vehicles are pulling in and pulling out of the present parking lane which is hazardous as it is without the added problem of a new junction. Whilst I

would prefer that the development does not go ahead at all, if it must then I suggest that the junction should be opposite The Hordens probably with a mini roundabout to remove the potential for collision presented by the current proposed junction.

Kind regards
