Subject: Planning DC/241605

Dear Sir/madam

I am a homeowner on Prestwood lane RH110LA and have been viewing the planning applications going on in the local area,
I am extremely concerned the flaunting of the planning process in place in relation to DC/241605 application to read certificate of lawful use
Extending 10 years how can that be when this property site hasn't existed more than 6 years if that ? how can that meet the threshold.
There are continual buildings going up all over this site assuming with no planning attached to them with lights on all night with dogs constantly barking.
The application reads closed, I am aware I am a lay person, and this may mean something else.
I have made comment on the planning site previously but feel this need to be raised to your planning officers

Kind regards
