Hi Amanda,

No outstanding arboricultural concerns on this application.

If seeking to retain existing landscape features (trees and hedges) for the next five years, in the absence of any plans that could be referred to in this respect, a basic standard landscape condition could be applied as deemed appropriate.

Regards

Andy

Hi Andy

Foer information, confirmation regarding the impacts of the proposed development at the above site on trees (none advised).

Please let me know if you still require any specific conditions.

Many thanks

Amanda

Hi Amanda

It is not envisaged that any of the trees would need to be removed, as the gap where the access would go is of sufficient width. Also, we do not envisage that the access will affect the health of any of the trees as they are small, young and the access surface will be porous.

If you require any other details please do not hesitate to contact me.

Kind regards

Liz

Hi Elizabeth

RE: DC/24/0623 Coomblands Equestrian

For information, please see tree officer comments attached above. Pleas e clarify whether any works are proposed which would affect the avenue of trees or their root protection areas.

Kind regards

Amanda
