# Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

## When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

## 4. Biodiversity net gain strategy

### 4.1 Is the relevant date for the pre-development biodiversity value the same date as the planning application?

- [x] Yes
- [ ] No

### 4.2 If no, what earlier date did you agree with the LPA?

### 4.3 How have you met the guidance on 'what counts towards your BNG'?

Find out what you can count towards a development's BNG

We have used a BNG calculation tool to establish what habitats count towards our BNG site enhancemments.
See BNG document for details.

### 4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

The proposed development is mostly surrounded by grassland of a low BNG value, with no irreplaceable habitats in the development.
We have protected trees with barriers and will ensure that any works are kept to hard standings and grassland as much as possible.

### 4.5 Did you use your local nature recovery strategy to inform the strategic significance of habitats?

This includes other specified strategies if you do not have a local nature recovery strategy.

- [ ] Yes
- [x] No

### 4.6 How will you achieve the target net gain percentage?

- [x] On-site
- [ ] Off-site
- [ ] Both

### 4.7 Are any of your on-site enhancements considered 'significant'?

Find out what counts as a significant on-site enhancement.

- [ ] Yes
- [x] No

**4.8 If yes, tell us about the significant on-site enhancements**
Include the appropriate planning condition or how you've secured the habitat.
