Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design
Comments:	I wish to lodge an objection to this Planning Application I objected to the earlier Planning Application DC/25/0394 on several grounds, including that it was completely out of keeping with the surrounding area. Specifically the Planning Officer in her response ruled that "the development by virtue of its scale and design, would represent an unduly and incongruous addition which would fail to reflect the

established pattern and character of surrounding development." Adding that the proposed development "would not relate sympathetic to the built surroundings ....."

In my opinion this revised Planning Application is no different to the above rejection in that respect. In fact there is an argument to say it's even worse.

I am therefore registering an objection which I trust the Planning Officer will consider.

Kind regards
