Address:	2 Trundle mead Horsham

Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Overdevelopment
Comments:	Although there has been a reduction in height to the proposed build, the width of the property (second floor) has now increased, resulting in a very bulky design. If granted, I believe this proposed application will adversely affect the street scene of Trundle Mead, also, adversely affect the direct neighbours either side regarding party wall proximity and the overbearing height and dominance so close to their properties. I am also concerned that if granted, this will set a precedence for future applications of a similar design,

losing our street scene forever and impacting the continued loss of bungalow stock. It is for these reasons I appose this application.

affect

Kind regards
