Reasons for comment:	
Comments:	<p>I am 100% in support of this application and have been following with interest as the applicants aims align with ours; to remain independent in our own home as we age, without the need to rely on government and local authority support.</p> <p>This plan merges seamlessly with government aims for increased sustainable and ECCO friendly housing.</p> <p>I would urge the committee to consider both central government policies and the local plan when this comes to consideration and support this application.</p>
