Comments Details

Commenter Type: Member of the Public

Stance: Customer made comments in support of the Planning Application

Reasons for comment: - Design

Comments: I fully agree with this planning application as it supports the goals of creating a cost effective green home.
The governments plan is to reduce carbon and for new buildings to introduce cost-effective measures that including efficient usage of resource such as water and non renewable energy sourcing such as solar panels.

I believe that the plans for this build are truly innovative and should be considered for approval

Kind regards
