TREE REPORT

Date Quote Sent: 19th March 2025
WTS Number: 1329
Surveyor: Dr Gavin Walker

URGENT SAFETY TREE WORK RECOMMENDED BY GALE TREE CONSULTANCY FEBRUARY 2025

T11/98. Common Ash (Fraxinus excelsior). Recommend fell to ground level.

This Ash Tree is located close to the Sports Pavilion and the disabled parking at Mannings Heath Recreation Ground. It is leaning towards the pavilion as there is a mature Oak tree in close proximity that is forcing the Ash to grow towards space and the light. There is also clear evidence of Ash dieback in the crown. Furthermore, there is a wound on the main trunk at about 1m height above ground level. Finally, the tree has an asymmetric crown due to uneven growth that has weighted the tree towards the pavilion.

Additional Notes:

- All work is undertaken by fully trained NPTC professionals. Public Liability & Employer's Liability insurance is provided up to £5 million.
- Our trained arborists will ensure that all cuts made are clean and to high arboricultural standards and complying with BS3998:2010.
- All waste removed to Stubbs Copse Woodyard near Arundel. Leave the site clean of all debris.
