Subject: Planning application for house opposite 1/4 Springhills

Categories: Comments Received

I have been a regular weekly visitor to Springhills for over 10 years having carried out significant works to dwellings no 1/5 Having recently spoken several times to residents 1/3 regarding this planning application I am very disheartened to hear of the worry and upset this has caused All the residents, in their latter years have enjoyed the unencumbered of peace and quiet privacy and uninterrupted views for the many years they have resided at Springhills and I am deeply saddened to hear their concerns From information I have gathered this planning application would be deeply obtrusive and somewhat unnecessary given the current status of the owner to residents at Springhills
