Comments:	We strongly object to the proposed access point opposite the entrance to Mackley Industrial Estate. This is a large entrance used very frequently both night and day by many vehicles including large articulated lorries. The proposed access point is at the bottom of a blind hill to the South and a difficult to see stretch of road into the village to the North. I believe that any change to

this junction will have a negative impact on the safety of all road users whether they are using the Estate or not.

Kind regards
