Subject: RE: DC/24/0610, Estate Wall

Hi Alice,

Thank you for your email,

Although, regrettably, it has not been possible to find an engineering solution that would ensure the successful and satisfactory retention of the mature Horse chestnut protected by TPO/0091. It is accepted that, in this instance, the wall needs to be repaired to an acceptable standard, which is not available with the tree in situ. Subject to a suitably sized replacement being planted in as close a position as possible to the tree in question, I would register no objection to this proposal.

Kind regards,

Andrew Bush
