A0 SHEET SIZE
1189 x 841 mm

The Contractor is to check and verify all building and site dimensions, levels and sewer invert levels at connection points before work starts. The Contractor is to comply in all respects with current Building Legislation, British Standard Specifications, Building Regulations, Construction (Design & Management) Regulations and all other relevant Statutory Requirements. This drawing is to be read in conjunction with and checked against any structural, geotechnical or other specialist documentation provided. This drawing is not intended to show details of foundations, ground conditions or ground contaminants. Each area of ground relied upon to support any structure imported (including drainage) must be investigated by the Contractor. A suitable method of foundation should be provided allowing for existing trees and proposed new planting. Each area of ground relied upon to support any structure must be investigated by a suitable expert. Any earthwork constructions shown indicate typical slopes for guidance only & should be further investigated by a suitable expert.
Where existing trees are to be retained they should be subject to a full Arboricultural inspection for safety. All trees are to be planted so as to ensure they are a minimum of 5 metres from buildings and 3 metres from drains and services. A suitable method of foundation is to be provided to accommodate the proposed tree planting.
Geoff Perry Associates Limited do not accept any responsibility for any losses (financial or otherwise) to any party arising from the failure of the Client (or Developer or Contractor but not limited thereto) to work in compliance with above mentioned provisions.
© This drawing is the property of Geoff Perry Associates Limited and may not be copied or used for any purpose other than that for which it is supplied without the express written authority of Geoff Perry Associates Limited.
