Specific areas that PHLO are asked to comment on:

Initial view of Case Officer:

PHLO Comments:

Commercial or agricultural buildings can be subject to significant contamination risks arising from their use, construction and storage of machinery equipment fuels or other chemicals. Potentially hazardous materials may also be incorporated in made ground, yards and hard standings.

In accordance with the recommendations of the Planning Practice Guidance, information is required on these matters and and a preliminary risk assessment including a site walkover should be provided to ensure the site can be made safe and suitable for the development.

Information with respect to water neutrality is also required.
