Comments Details

Commenter Type:	Member of the Public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Design
Comments:	I support this application for the following reasons It is a sympathetic improvement of a house with historic local significance, in line with the design and architecture policies described in the Rudgwick Development Plan. The subservient roof lines of the extended area, the fact that it is stepped back from the main house, and is linked with the existing garage creates a pleasant street scene which is in keeping with the character of neighbouring properties.

Kind regards
