DELEGATED APPLICATIONS - ASSESSMENT SHEET

APPLICATION NO./ADDRESS:
DC/23/1966
Deans Cottage , High Street, Partridge Green, West Sussex, RH13 8ET

DESCRIPTION:
Erection of a garden shed and greenhouse (Householder Application)

RELEVANT PLANNING HISTORY:

DC/19/0548	Conversion of garage into habitable living space (Listed Building Consent)	Application Permitted on 02.05.2019
DC/23/1025	Demolition of outbuilding and erection of garden room (Householder)	Application Permitted on 11.10.2023

RELEVANT PLANNING POLICIES
The National Planning Policy Framework (NPPF)

Horsham District Planning Framework (2015):
Policy 25- Strategic Policy: The Natural Environment and Landscape Character
Policy 26- Strategic Policy: Countryside Protection
Policy 28- Replacement Dwellings and House Extensions in the Countryside
Policy 31- Green Infrastructure and Biodiversity
Policy 32- Strategic Policy: The Quality of New Development
Policy 33- Development Principles
Policy 34- Cultural and Heritage Assets

West Grinstead Neighbourhood Plan

REPRESENTATIONS AND CONSULTATIONS RESPONSES

Consultations:
HDC Conservation and Heritage Officer: No Objection, the proposed garden buildings are not unexpected in this context and will not harm the setting of the listed building.

Natural England: Standing Advice:-

It cannot be concluded that existing abstraction within the Sussex North Water Supply Zone is not having an adverse effect on the integrity of the Arun Valley SAC/SPA/Ramsar sites. Developments within Sussex North must therefore must not add to this impact and one way of achieving this is to demonstrate water neutrality. The definition of water neutrality is the use of water in the supply area before the development is the same or lower after the development is in place.

To achieve this Natural England is working in partnership with all the relevant authorities to secure water neutrality collectively through a water neutrality strategy. Whilst the strategy is evolving, Natural England advises that decisions on planning applications should await its completion. However, if there

are applications which a planning authority deems critical to proceed in the absence of the strategy, then Natural England advises that any application needs to demonstrate water neutrality.

HUMAN RIGHTS AND EQUALITY:
The application has been considered having regard to Article 1 of the First Protocol of the Human Rights Act 1998, which sets out a person's rights to the peaceful enjoyment of property and Article 8 of the same Act, which sets out their rights in respect to private and family life and for the home. Officers consider that the proposal would not be contrary to the provisions of the above Articles.

The application has also been considered in accordance with Horsham District Council's public sector equality duty, which seeks to prevent unlawful discrimination, to promote equality of opportunity and to foster good relations between people in a diverse community, in accordance with Section 149 of the Equality Act 2010. In this case, the proposal is not anticipated to have any potential impact from an equality perspective.

PLANNING ASSESSMENT
The application has been assessed on the basis of the submitted details, together with the planning history of the site and adjoining properties, available images and photographs supplied by the agent. These details were considered sufficient to allow the application to be properly considered and determined.

Character and Appearance

Policies 32 and 33 of the HDPF seek to ensure that development promotes a high standard and quality of design in order to enhance and protect locally distinctive characters. The policies also seek to ensure that the scale, massing and appearance of development relates sympathetically with the built surroundings, landscape, open spaces and routes within and adjoining the site, including any impact on the skyline and important views.

Policy 34 of the HDPF states that development should be reinforce the special character of the historic environment through appropriate siting, scale, form and design; and should make a positive contribution to the character and distinctiveness of the area. Proposals should preserve and ensure clear legibility of locally distinctive vernacular building forms and their settings, features, fabric and materials.

Paragraph 193 of the NPPF (2018) states that "when considering the impact of proposed development on the significance of a designated heritage asset, great weight should be given to the asset's conservation (and the more important the asset, the greater the weight should be)." Paragraph 194 continues to state that "any harm to, or loss of, the significance of a designated heritage asset (from its alterations or destruction, or for of development within its setting), should require clear and convincing justification."

The application proposes the erection of a single storey garden shed, which would be sited to the rear of a previously approved larger outbuilding, and for a greenhouse sited to the south-eastern corner of the rear garden. The scale, function and nature of the outbuildings would be clearly secondary to the principle listed building and would not result in any adverse impact on its setting. The wider visual impact would be limited, and although visible from adjoining properties and land the outbuildings would not be intrusive or unexpected in a location such as this.

The proposal would therefore preserve the historic interest of the Grade II Listed Building and would have an acceptable visual impact on the wider surrounding area, in accordance with development plan policies.

Impact on Neighbouring Amenity

Policy 33 of the HDPF states that permission will be granted for development that does not cause unacceptable harm to the amenity of the occupiers/users of nearby properties and land.

It is considered that the siting, layout and intended use of the proposed outbuildings and the resulting relationship with adjoining properties would be sufficient to prevent any unacceptable harm to neighbouring amenity.

Water Neutrality

There is no clear or compelling evidence to suggest the nature and scale of the proposed development would result in a more intensive occupation of the dwelling necessitating an increased consumption of water that would result in a significant impact on the Arun Valley SAC, SPA and Ramsar sites, either alone or in combination with other plans and projects. The grant of planning permission would not therefore adversely affect the integrity of these sites or otherwise conflict with policy 31 of the HDPF, NPPF paragraph 180 and the Council's obligations under the Conservation of Habitats and Species Regulations 2017.

Conclusion

The proposal is considered to comply with relevant local and national planning policies and is therefore recommended for approval.

Recommendation: Application Permitted

Conditions:

2 **Standard Time Condition**: The development hereby permitted shall begin before the expiration of three years from the date of this permission.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

3 **Regulatory Condition**: The materials to be used in the development hereby permitted shall strictly accord with those indicated on the application form and approved plans.

Reason: To enable the Local Planning Authority to control the development in detail in the interests of visual amenity and in accordance with Policy 33 of the Horsham District Planning Framework (2015).

POSITIVE AND PROACTIVE STATEMENT
Statement pursuant to Article 35 of the Town and Country Planning (Development Management Procedure) (England) Order 2015. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received, in order to be able to, where possible, grant permission.
