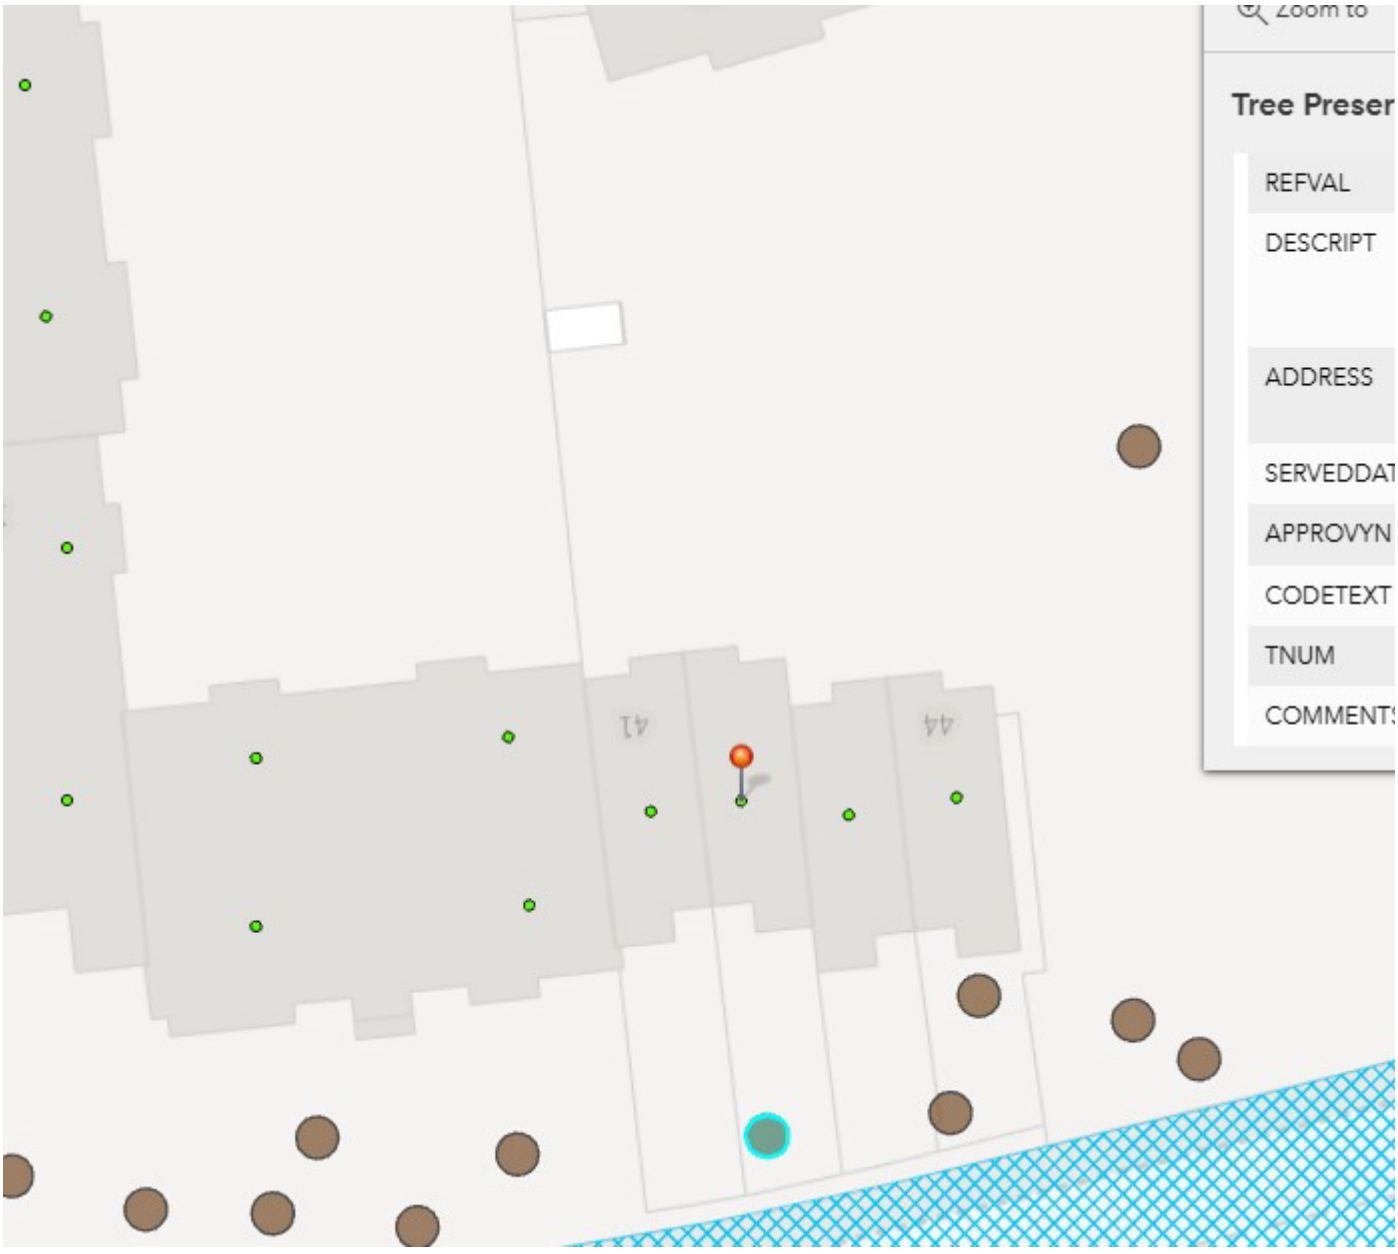
[redacted] [redacted]



I can confirm this is the location of the mentioned tree,
The tree is currently 15 meters in height with a branch spread of 6-8m on all sides.
We are aiming to remove 1.5-2 meters , leaving a finished height of 13.5 meters and branch length of 5-6meters to allow light to enter the garden and contact with building and new fencing and reduce the amount of bird defication on the gardens.
