

- KEY
- APPLICATION BOUNDARY
  - FW FOUL WATER SEWER
  - SS FOUL POP-UP ( SUB-STACK)
  - FG FOUL POP-UP ( FLOOR GULLY)
  - SW SURFACE WATER SEWER
  - RWP RAINWATER PIPE
  - ATTENUATION TANK / SOAKWAY- SIZE SHOWN INDICATIVELY

NOTE  
Strategy to be detailed by Civil Engineer in next stage ( 4 ) and confirmed by Building Control.

Existing surface water is disposed of via sewer, therefore providing a reduction in overall runoff.

Pathways / building surrounds are fully permeable.
