SUMMARY OF COMMENTS & RECOMMENDATION: The drainage report is missing, so further comments will be necessary when this has been provided. Adjustments need to be made to comply with the caravan site licence conditions.	
MAIN COMMENTS: <ul style="list-style-type: none">Water neutrality – comments will be made by the Environmental Protection team separatelyWithin the original Water Neutrality report and Water Management Plan dated 16.8.25, it mentions that rainwater tanks and pipework will be provided. However, it does not mention the route of pipes for sewage and the position of the sewage treatment plant and where the soakaway field is to be situated. These details are important as the applicant needs to ensure that the sewage treatment system cannot contaminate the water harvesting system. There is no addition to the revised version dated 89th October 2025The drainage report mentioned in the planning statement dated 16 August 2025 has still not been providedDetails are required in relation to the proposed soakaway drainage field mentioned in the planning statement dated 16 August 2025 in order to assess whether this is practical on this site has still not been provided
