Subject: Re: Tree Application Invalid - DC/25/0349

Categories: Kath

Hello,
As requested additional information.
WSX 239898 attached to my application details the one oak tree location in the north east corner of plot 57 bordering with plot 55 I am wishing to reduce the new growth since the last tree surgery 29/11/2021.
Previous surgery 21/05/2018, 10/03/2012& 28/04/2006 DC /06/0112
This application for the 15 metre high oak tree is to reduce the growth from the last surgery to approximately 35 branches by removing no more than 30 cm of the main branches.
Photo attached on the application.
I have employed George Potbury Forestry since 2006 to carry out the tree surgery.
The tree is close to my house and keeping the new growth under control is the responsible course of action.
This has maintained the health of the tree.
Reducing the canopy of the tree reduces the possibility of damage to the tree and house in high winds.
I have to show I have maintained the tree to comply with home buildings insurance.

Please let me know if you require any additional information.
Kind regards
John Hajdukiewicz
