Cowfold Neighbourhood Plan (CNP) 2019 – 2031:
Cowfold Parish have produced a neighbourhood plan which have been subject to successful Examination but cannot proceed to Referendum because of the legal requirements in relation to Water Neutrality and the Habitat Regulations.

Planning Advice Notes:
Facilitating Appropriate Development
Biodiversity and Green Infrastructure

REPRESENTATIONS AND CONSULTATIONS RESPONSES

Consultations:

HDC Conservation Officer: No Objection
Horsham District Council's Conservation Officer commented 'the application property is a modern chalet style property situated in a rural location on the western side of Park Lane. Due to the position

and size of the proposed extension it is not considered that it would impact on the setting of the neighbouring listed buildings'.

Natural England: Standing Advice:-
It cannot be concluded that existing abstraction within the Sussex North Water Supply Zone is not having an adverse effect on the integrity of the Arun Valley SAC/SPA/Ramsar sites. Developments within Sussex North must therefore must not add to this impact and one way of achieving this is to demonstrate water neutrality. The definition of water neutrality is the use of water in the supply area before the development is the same or lower after the development is in place.

To achieve this Natural England is working in partnership with all the relevant authorities to secure water neutrality collectively through a water neutrality strategy. Whilst the strategy is evolving, Natural England advises that decisions on planning applications should await its completion. However, if there are applications which a planning authority deems critical to proceed in the absence of the strategy, then Natural England advises that any application needs to demonstrate water neutrality.

HUMAN RIGHTS AND EQUALITY:

The application has been considered having regard to Article 1 of the First Protocol of the Human Rights Act 1998, which sets out a person's rights to the peaceful enjoyment of property and Article 8 of the same Act, which sets out their rights in respect to private and family life and for the home. Officers consider that the proposal would not be contrary to the provisions of the above Articles.

The application has also been considered in accordance with Horsham District Council's public sector equality duty, which seeks to prevent unlawful discrimination, to promote equality of opportunity and to foster good relations between people in a diverse community, in accordance with Section 149 of the Equality Act 2010. In this case, the proposal is not anticipated to have any potential impact from an equality perspective.

PLANNING ASSESSMENT

Planning permission is sought for the replacement of existing conservatory with a garden room at Oakhurst, Park Lane, West Grinstead, West Sussex. Oakhurst is large, modern styled chalet bungalow set on a modest plot. The property is not within a conservation area however is sited close to two Listed Buildings.

The application has been assessed on the basis of the submitted details, together with the planning history of the site, available images and photographs. These details were considered sufficient to allow the application to be properly considered and determined.

Character and Appearance

Policy 28 of the HDPF states that outside the defined built-up area, house extensions will be supported if the development can be accommodated appropriately within the curtilage of the existing dwelling.

Policy 32 and 33 of the HDPF seeks to ensure that development promotes a high standard and quality of design in order to enhance and protect locally distinctive characters. The policies also seek to ensure that the scale, massing and appearance of development relates sympathetically with the built surroundings, landscape, open spaces and routes within and adjoining the site, including any impact on the skyline and important views.

Policy 9 of the CNP requires development be of sympathetic scale and relate positively to surrounding area. Development should use high grade materials and finishes to achieve good design and are respectful in density to the local vicinity.

The proposed development is for the replacement of existing conservatory with a garden room at Oakhurst, Park Lane, West Grinstead. A 'L shaped' conventual conservatory is to be replaced by a purpose built garden room, 5m in width, 4.7m in depth and a hipped roof height of 4.2m. The new garden room is to be finished in materials that match the existing dwellinghouse and is to echo the previous conservatory by being a well lit room, with large windows and skylights. The proposal is modest and sheltered from public view. It is considered that there would be limited implications on the approximate listed buildings. Though taller than the existing conservatory, it is considered an appropriately designed addition.

The proposal would be a clearly subservient addition and is considered to be of a design, form and scale which is appropriate to the character and appearance of the existing dwelling, and which would not harm the character or appearance of the wider area. It is therefore considered that the visual impact of the proposal is acceptable and would accord with the above policies.

Impact on Neighbouring Amenity

Policy 33 of the HDPF states that permission will be granted for development that does not cause unacceptable harm to the amenity of the occupiers/users of nearby properties and land.

It is considered that the siting and layout of the proposed extension and the resulting relationship with adjoining properties would be sufficient to prevent any unacceptable harm to neighbouring amenity.

Water Neutrality

There is no clear or compelling evidence to suggest the nature and scale of the proposed development would result in a more intensive occupation of the dwelling necessitating an increased consumption of water that would result in a significant impact on the Arun Valley SAC, SPA and Ramsar sites, either alone or in combination with other plans and projects. The grant of planning permission would not therefore adversely affect the integrity of these sites or otherwise conflict with policy 31 of the HDPF, NPPF paragraph 180 and the Council's obligations under the Conservation of Habitats and Species Regulations 2017.

Conclusion

The proposal is considered to comply with relevant local and national planning policies and is therefore recommended for approval.

Recommendation: Application Permitted

Conditions:

2 **Standard Time Condition**: The development hereby permitted shall begin before the expiration of three years from the date of this permission.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

3 **Regulatory Condition**: The materials and finishes of all new external walls, windows and roofs of the development hereby permitted shall match in type, colour and texture those of the existing building.

Reason: In the interests of visual amenity and in accordance with Policy 33 of the Horsham District Planning Framework (2015).

POSITIVE AND PROACTIVE STATEMENT

Statement pursuant to Article 35 of the Town and Country Planning (Development Management Procedure) (England) Order 2015. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received, in order to be able to, where possible, grant permission.
