Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Privacy Light and Noise
Comments:	With regard to this application we would like you to consider our comments below. Firstly the Block and location plans submitted with the proposals are not up to date and do not show the affect of the extensions, in particular Amberley where we are already overshadowed and have buildings have on our property, which already overshadow us and affect our privacy. Currently there is one window at the rear of " Woodcroft" We feel that with three additional windows at the back of the property (Total of 4) this will compromise our privacy further. Not only will it overlook most of our garden but with the proximity of the nearest window to our boundary they will look right into our immediate garden and we won't have any privacy in our

garden.

We are are also concerned about the "Natural coloured wood planks" shown on the new elevations. More specific information is required relating to the size and construction. The appearance of the proposed wooden cladding is not in keeping with other local properties which are tile hung and therefore we feel it will affect the character of the surrounding area.

Once again we would re-issue our previous objection that the proposed new plan will change the character of Chesworth Lane. Previously all properties, on the south side of Chesworth Lane, were bungalows or chalet bungalows

---

Kind regards
