Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design
Comments:	My objection is regarding the continued use of the black vertical weatherboarding which was a concern that has been raised previously. The current contrast between the red bricks, the white framed windows and the new black weather boarded third floor means the current building stands out from all the other buildings in the area. The existing half & half design looks like two separate buildings from the rear; one black plastic floor placed on top of the existing brick building. The new plan looks to still use the vertical black weatherboarding

and is not in keeping with the character of neighbouring buildings. Could this please be taken into consideration.

Kind regards
