Hello Horsham Planning

Ref: DC/24/1889 (Neighbour Comment)

Noted 02/01/25 deadline extended by 3 bank holidays to 05/01/25.

We are a directly neighbouring property with a shared boundary and have the following comments.

Windows on side elevation (as per image below)

Currently there are no windows on the existing side elevation.

Point 1 (Loss of Privacy): Proposed floor to ceiling window on first floor will overlook our side and rear patio/garden - impacting our privacy (currently not overlooked). Possible solutions: (a) remove window (b) window to be obscure glazed and fixed (not able to open).

Point 2 (Increased Noise): Proposed ground floor sliding/folding doors will increase noise levels projected towards our property (would be compounded further if patio area is created). Possible solutions: (a) remove sliding/folding doors (b) relocate sliding/folding doors to front elevation.
