Dear Sir/Madam,

The installation of a substation within a land plot of 3m x 3m x 2.6m

Land at Capel Road Rusper Horsham West Sussex

I refer to your notification received in this office on 30th January 2024 concerning the above site.

The substation would be sited on a relatively open section of highway land adjacent to Capel Road, a tree lined country lane in a rural location. There are not comments in respect of the proposed siting, which would seemingly have the least impact on existing vegetation which makes an important contribution to the character of the locality. It would though be recommended that any substation be finished in a green colour, and that any means of enclosure be in keeping with the immediate surrounds.

Subject to the above I can confirm that this Authority has no comments to make on the above proposal. The works can therefore be undertaken in accordance with the submitted details, together with the criteria contained within Part 15 of Schedule 2 of the Town and Country (General Permitted Development) Order 2015, as amended.

I trust this information is of assistance to you. Should you however require any further information or clarification please do not hesitate to contact the Case Officer as detailed above.

Yours faithfully

Emma Parkes
Head of Development and Building Control
