SUMMARY OF COMMENTS & RECOMMENDATION:

Although the site is within an Archaeological Notification Area the proposed works area not particularly large and do not involve deep ground disturbance and so we have no archaeological concerns

MAIN COMMENTS:

Although the site is within an Archaeological Notification Area DWS8516 Iron Ore Industry and Medieval Moated Site, Rusper- the site is some distance from the moated site and the form of the new build being a steel frame with pad foundations will minimise below ground disturbance and so will not impact significantly on buried archaeological deposits. We therefore have no archaeological recommendations in this case.

ANY RECOMMENDED CONDITIONS:

None
