52 Linden House
Chart Way
Horsham
RH12 1QB

I'm concerned regarding the change of use from office building to private accommodation

I'm concerned primarily in the scale of the conversion regarding the number of flats intended

At present we have ongoing problems with both the supply of fresh water and also disposal of waste. There is a huge difference in the use and requirements of these facilities when people are living there full time. How is this problem going to be resolved?
There will be added noise and traffic pollution also a loss of privacy. Yesterday, I observed two people leaning over the RSA balcony smoking, looking directly into the property of Linden House also any pedestrian walking past is likely to have ash dropped on them. Is there going to be a privacy barrier to stop people doing that? The building opposite has one installed so nothing can be dropped over the side.

Regards
