Dear Shazia,

Thank you for asking for amendments to the statement. I had tried to incorporate the matters that the EHO had asked for that were relevant and set it out in the form of a noise management plan that I am used to seeing.

I have however now included a list of terms and conditions to be provided to the operator. I think the key here is that the use takes place on a camp site where the owners live so they are on site to monitor the use and as owners can prevent dogs using the facility that cause a nuisance in a similar way that they manage users of the camp site that cause a nuisance.

I hope this is what your EHO is looking for but please let me know. I haven't had chance to agree this with my client given your timescale so if it is acceptable, I would like to agree it with them before it is imposed.

Regards

Dawn

Dear Dawn

I received comments from the Environmental Health Officer, please see below:

The submitted document does not cover all of the points in my memo (which I mentioned was not exhaustive). In order to assist, they should think of it as a management guide, i.e. terms of use for the users of the space, how they will actively monitor it, how they will stop users using it if they breach the conditions/are too noisy, etc.

Could you kindly send me an amended noise management covering the above today and I can see whether the officer will review the updated NMP.

Regards

Shazia Penne
