Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Loss of General Amenity - Privacy Light and Noise
Comments:	Hi, the removal of the existing hedge and trees has removed the privacy from the garden and house. They will have the headlights from vehicles shone across their property and also noise from the engines of vehicle's due to the lay of the land. The dynamic's of their rear garden have been changed for the worse so I am in support of the changes that they would like to carry out.

Kind regards
