Natural England: Standing Advice:-

It cannot be concluded that existing abstraction within the Sussex North Water Supply Zone is not having an adverse effect on the integrity of the Arun Valley SAC/SPA/Ramsar sites. Developments

within Sussex North must therefore must not add to this impact and one way of achieving this is to demonstrate water neutrality. The definition of water neutrality is the use of water in the supply area before the development is the same or lower after the development is in place.

To achieve this Natural England is working in partnership with all the relevant authorities to secure water neutrality collectively through a water neutrality strategy. Whilst the strategy is evolving, Natural England advises that decisions on planning applications should await its completion. However, if there are applications which a planning authority deems critical to proceed in the absence of the strategy, then Natural England advises that any application needs to demonstrate water neutrality.

HUMAN RIGHTS AND EQUALITY:

The application has been considered having regard to Article 1 of the First Protocol of the Human Rights Act 1998, which sets out a person's rights to the peaceful enjoyment of property and Article 8 of the same Act, which sets out their rights in respect to private and family life and for the home. Officers consider that the proposal would not be contrary to the provisions of the above Articles.

The application has also been considered in accordance with Horsham District Council's public sector equality duty, which seeks to prevent unlawful discrimination, to promote equality of opportunity and to foster good relations between people in a diverse community, in accordance with Section 149 of the Equality Act 2010. In this case, the proposal is not anticipated to have any potential impact from an equality perspective.

PLANNING ASSESSMENT

The application has been assessed on the basis of the submitted details, together with the planning history of the site and adjoining properties, available images and photographs supplied by the agent.

An error has been identified in the proposed floor plans, where the Proposed First Floor Plan and Proposed Ground Floor plans are indicated as “Proposed Second Floor Plan” and “Proposed First Floor Plan” in the drawings respectively, but the Drawing Titles of the two plans are correctly identified. Subject to planning approval, conditions would be imposed to ensure the development is to be carried out according to the descriptions on the Drawing Titles of all plans.

All submitted details were considered sufficient to allow the application to be properly considered and determined.

Character and Appearance

Policy 32 and 33 of the HDPF seeks to ensure that development promotes a high standard and quality of design in order to enhance and protect locally distinctive characters. The policies also seek to ensure that the scale, massing and appearance of development relates sympathetically with the built surroundings, landscape, open spaces and routes within and adjoining the site, including any impact on the skyline and important views.

Policies HB3, HB4 and HB5 of the HBBNP seeks to ensure that developments have high quality of design and be energy and water efficient. Local character shall also be respected to integrate with its surrounding built form.

The proposed development involves the erection of a two-storey side extension at 33 Cootes Avenue, Horsham, RH12 2AD. A chimney would also be removed according to the proposed plans.

The side extension would be set back from the principal elevation and would extend the overall width of the dwellinghouse by four metres towards the eastern site boundary, and the rear of the side extension would join the existing single storey rear extension. The surrounding dwellings on Cootes Avenue consist of modern detached and semi-detached two-storey houses and bungalows. There is a variation of external wall materials and finishes among neighbouring dwellinghouses as well, with many consisting of either red brickwork or render.

The proposed walls and roof of the side extension would match that of the existing dwellinghouse. This would minimise the impact to the surrounding built environment and respects the character of the locality and wider street scene.

The proposal is considered to be of a design, form and scale which is appropriate to the character and appearance of the existing dwelling, and which would not harm the character or appearance of the wider area. It is therefore considered that the visual impact of the proposal is acceptable and would accord with the above policies.

Impact on Neighbouring Amenity

Policy 33 of the HDPF states that permission will be granted for development that does not cause unacceptable harm to the amenity of the occupiers/users of nearby properties and land.

Due to a setback from the principal elevation, the proposed two-storey side extension would not cause a significant change in appearance from Cootes Avenue. The western site boundary of neighbouring 31 Cootes Avenue would be adjacent to the proposed side extension. However, there is a large garage by the western site boundary on 31 Cootes Avenue and there would be no side windows in the proposal. Therefore, there would be no change to overlooking and impacts to the amenity of 31 Cootes Avenue would not be considered unacceptable.

There would be no additional significant impacts to neighbouring dwellinghouses due to the siting, scale and orientation of the proposed side extension, as well as the existing built form. It is considered that the siting and layout of the proposed extension and the resulting relationship with adjoining properties would be sufficient to prevent any unacceptable harm to neighbouring amenity.

Water Neutrality

There is no clear or compelling evidence to suggest the nature and scale of the proposed development would result in a more intensive occupation of the dwelling necessitating an increased consumption of water that would result in a significant impact on the Arun Valley SAC, SPA and Ramsar sites, either alone or in combination with other plans and projects. The grant of planning permission would not therefore adversely affect the integrity of these sites or otherwise conflict with policy 31 of the HDPF, NPPF paragraph 180 and the Council's obligations under the Conservation of Habitats and Species Regulations 2017.

Conclusion

The proposal is considered to comply with relevant local and national planning policies and is therefore recommended for approval.

Recommendation: Application Permitted

Conditions:

2 **Standard Time Condition**: The development hereby permitted shall begin before the expiration of three years from the date of this permission.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

3 **Regulatory Condition**: The materials to be used in the development hereby permitted shall strictly accord with those indicated on the application form and approved plans.

Reason: To enable the Local Planning Authority to control the development in detail in the interests of visual amenity and in accordance with Policy 33 of the Horsham District Planning Framework.

POSITIVE AND PROACTIVE STATEMENT

Statement pursuant to Article 35 of the Town and Country Planning (Development Management Procedure) (England) Order 2015. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received, in order to be able to, where possible, grant permission.
