Comments:	I'd like to express my support for this application. I can't see that it negatively impacts anything or anyone and is supporting a local rural existing business in a rural location. I like the design.

What a wonderful opportunity to support an application that is in line with the local plan (policy 26) but given it is out of date I'm sure the NPPF presumption in favour of sustainable development will apply and in light of HDCs extreme shortfall in housing supply we will see this application permitted.

Kind regards.
