ENVIRONMENTAL POLICY

Sunninghill Construction Co Limited is committed to protecting the environment in which it operates.
The company is accredited to BS EN ISO 14001:2015 Environmental Management and maintains an integrated management system designed to meet the requirements of both BS EN ISO 14001:2015 and BS EN ISO 9001:2015.

It is the policy of Sunninghill Construction to:

- comply with all environmental legislative obligations, codes of practice and all other requirements applicable to our activities

- protect the environment by:
    - preventing pollution
    - managing and reducing local impacts resulting from disturbance, dust and noise
    - protecting and enhancing biodiversity and local ecosystems
    - reducing greenhouse gas emissions
    - using sustainable materials efficiently and minimising waste
    - reducing water use
- in accordance with circular economy principles, maintain the value of our waste streams through maximising product re-use and re-manufacture and ensure that this is facilitated by, and exploited in, the products that we procure from our supply chain.

- reduce carbon emissions by 80% by 2035 and achieve net zero emissions by 2050

- provide the resources necessary to enable these objectives to be met:
    - appropriate equipment
    - trained and competent staff who are aware of their individual obligations in respect of this policy and its impact on customer service

- strive to satisfy the requirements of our customers, stakeholders and interested parties and whenever possible, exceed their expectations

The integrated management system provides a framework for setting, monitoring, reviewing and achieving our objectives, enabling continuous improvement. It is regularly reviewed by the Directors and Operational Directors to ensure it remains appropriate and suitable to our business. The system is subject to both internal and external annual audits.

The Integrated Management System Policy will be made available to interested parties, both internal and external.

Signed:

Managing Director
