Stance:	Customer objects to the Planning Application
Reasons for comment:	- Other
Comments:	In these times of hardship, welfare been very hard to access, lack of funds, lack of personnel do you consider it good use of tax payers fund to resurface a tennis count when was only resurfaced a few years ago when an additional court was built, what is wrong with the current surface, already this year tax payers funds have been used to employ counteractor to pressure wash the tennis courts, cut the hedges, do not the tennis club members have a broom and a bucket of water. The LED light that are on up to 10pm shinning into the bedrooms,

lounges, gardens and homes of local residence very white bright light, why were shades not placed so the bright LED lights on only shine onto the tennis court and not residential homes. Could you please confirm these bright LED lights will not affect the eye sight of residents who are having the interior of their home lit up, we bough our home to have a view of the downs , not to be blinded by bright white lights. Awaiting your response.

Kind regards
