I object to planning application DC/25/1312 west of Ifield for the following planning reasons.

Transport

At present there are far too many cars in Ifield. Namely using the station, going to school and work. Parents go onto work from school so many don't walk, let alone cycle. It is dangerous and congested at present and more cars on the road will create gridlock. Especially using cut throughs.

Schools and health care. East Surrey hospital is stretched too capacity as it is. Has there been any consultation with the government about another 3,000 residents needing to access the hospital.
