Dear Ms Riggs,

Thank you for your letter of 21st June informing me of my neighbours'
planning application regarding their new garden summer house.

My wife and myself are the people who see this new structure the most, and we have no objection whatsoever to it. It's a pity more people don't maintain their gardens in such a tasteful and sympathetic way.

I do wonder why stretched local authority finances need to be further burdened by having to investigate such a trivial matter.

Yours faithfully,
