Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Overdevelopment
Comments:	I strongly oppose to this development as in my view it is a gross overdevelopment of the site. The proposed development is on the boundary of the site. The two storey blank wall on the fence line is stark and out of keeping for the area. This type of development is more akin to a town house development rather than a village setting. It will dominate the area and have a negative impact on the neighbourhood. Please reject this application.

Kind regards
