Attachments: ufm7_Environmental_Health_Consultation_Sheet.pdf

Hi Halima

Thanks for the consultation request.

For condition 1 the information provided is satisfactory but the condition requires submission of the validation report as described in section 7.0 of the Aran Acoustics Noise Mitigation and Ventilation Scheme Report.
I would recommend the condition is not discharged until the validation report confirming that the approved noise mitigation and ventilation measures have been installed.

For condition 2, the Asbestos Refurbishment Survey prepared by Environmental Surveying and Remediation Ltd has not identified any asbestos containing materials in the part of the building to be converted to dwellings. Therefore the condition can be discharged.

Regards

Lee
