The Grattons

Oak: At present, Oak stands at approximately 19m with a crown spread of 4.5m from stem centre.

After works, there would be residual height of 17m with a crown spread of 3 to 3.5m from stem centre.

Oak: At present, Oak stands at approximately 17m with a crown spread of 4 to 4.5m from stem centre.

After works, there would be residual height of 16 to 16.5m with a crown spread of 3 to 3.5m from stem

The requested works are for general upkeep and maintenance and to also maintain them at their present size. The works would not be detrimental nor affect the amenity value of the trees or the area
