Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

1. Submission details

1.1 Date

For example, 3/11/2023

25/06/2026

1.2 Planning application reference number

DC/25/0458

1.3 Local planning authority (LPA)

Horsham District Council

1.4 Development site address

If the site does not have an address, enter the OS grid reference.

Land at Hilland Road, Billingshurst, RH14 9HP

1.5 Describe the development

Tell us about the proposed development and any changes of use (250 words).

The proposals for the site are for the erection of a workshop, storage building with associated vehicular parking, yard area and access. Nine of the ten existing trees will be retained with soft landscaping plans showing the creation of grassland, scrub and ornamental shrub habitats with planting of hedge and trees. A small telecommunications compound and part of an existing access associated with an adjacent development will be retained within the red line application boundary.

4. Biodiversity net gain strategy

4.1 Is the relevant date for the pre-development biodiversity value the same date as the planning application?

☒ Yes
☐ No

4.2 If no, what earlier date did you agree with the LPA?

4.3 How have you met the guidance on 'what counts towards your BNG'?

Find out what you can count towards a development's BNG

On-site habitat creation. The proposals achieve a – 68.65% (- 8.33 units) habitat loss and a + 762.02% hedgerow gain (+ 1.26 units).

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

No irreplaceable baseline habitats

4.5 Did you use your local nature recovery strategy to inform the strategic significance of habitats?

This includes other specified strategies if you do not have a local nature recovery strategy.

☒ Yes
☐ No

4.6 How will you achieve the target net gain percentage?

☐ On-site
☐ Off-site
☒ Both

4.7 Are any of your on-site enhancements considered 'significant'?

Find out what counts as a significant on-site enhancement.

☒ Yes
☐ No

4.8 If yes, tell us about the significant on-site enhancements

Include the appropriate planning condition or how you've secured the habitat.

0.151 km of species-rich native hedgerow with trees providing 1.40 units secured by the Biodiversity Net Gain Condition.

4.9 How many off-site biodiversity units do you need to meet 10% net gain?

9.54

4.10 Explain why you're using off-site biodiversity units

Only answer this question if you're planning to use off-site biodiversity units (250 words).

The proposed development provides no further opportunity for habitat creation or enhancement. As residual impacts remain, the developer will seek the delivery of off-site units through an independent off-site provider.

4.11 Explain why you're planning to use statutory biodiversity credits

Only answer this question if you're planning to use statutory biodiversity credits (250 words).

4.12 Do you have a habitat management and monitoring plan?

☒ Yes
☐ No

4.13 Have you used the statutory biodiversity metric tool?

☒ Yes
☐ No

4.14 Biodiversity metric calculation

☒ No

6.7 Give details

Tell us about the amount of biodiversity units and the development location (250 words).

7. Off-site habitat enhancements

Answer this section if your development includes off-site habitat enhancements.

7.1 Tell us about the off-site habitat enhancements

Include whether you're delivering the off-site enhancements or buying biodiversity units.
