Thank you for requesting advice on this application from Place Services' ecological advice service. This service provides advice to planning officers to inform Horsham District Council planning decisions with regard to potential ecological impacts from development. Any additional information, queries or comments on this advice that the applicant or other interested parties may have, must be directed to the Planning Officer who will seek further advice from us where appropriate and necessary.

Application: DC/25/1371
Location: Land West of Parsons Field Stables Pickhurst Lane Pulborough West Sussex RH20 1DA
Proposal: Use of land for the stationing of 2 static caravans for residential purposes and associated day rooms. Erection of stable buildings and formation of hardstanding (retrospective) Associated landscape works including planting of native hedges and removal of hardstanding (Retrospective)

Thank you for re-consulting Place Services on the above retrospective application.

No ecological objection	<input type="checkbox"/>
No ecological objection subject to attached conditions	<input checked="" type="checkbox"/>
Further information required/Temporary holding objection	<input type="checkbox"/>
Recommend Refusal	<input type="checkbox"/>

Please refer to Horsham District Councils advice regarding [Water Neutrality requirements](#) following Natural England's Withdrawal Statement (31st October 2025).

Summary

We have reviewed the additional ecology information submitted, including the Existing and Proposed Block Plans Drawing No. 2507PI_001 (Promethean Planning, September 2025). We note that this plan indicates that one bird box will be erected on the mobile home or on a tree within the site and one bat box will be erected on the mobile home or on a tree 3-5m above the ground. We also note that gaps in existing hedgerows will be infilled with native species. We also support the Landscaping Drawing No. 400 (Promethean Planning, October 2025) from an ecological perspective.

We have no further comments. Please note that comments on Biodiversity Net Gain are provided by Horsham District Council in-house.

We are still satisfied that there is sufficient ecological information available for determination of this application. We still have no objections on ecological matters excluding Great Crested Newt as we have been instructed to leave comments on this European Protected Species to the [NatureSpace Partnership](#)

Please note that the our HRA screening report dated 2nd October 2025 is still valid.

For clarity, we have included the conditions recommended in our response dated 2nd October 2025 below. Submission for approval and implementation of the details below should be a condition of any planning consent:

Recommended conditions

1. ACTION REQUIRED IN ACCORDANCE WITH ECOLOGICAL APPRAISAL RECOMMENDATIONS

“All mitigation measures and/or works shall be carried out in accordance with the details contained in the Preliminary Ecological Appraisal (Sylvatica Ecology Ltd., August 2025) as already submitted with the planning application and agreed in principle with the local planning authority prior to determination.

This may include the appointment of an appropriately competent person e.g. an ecological clerk of works (ECoW) to provide on-site ecological expertise during construction. The appointed person shall undertake all activities, and works shall be carried out, in accordance with the approved details.”

Reason: To conserve protected and Priority species and allow the LPA to discharge its duties under the Conservation of Habitats and Species Regulations 2017 (as amended), the Wildlife & Countryside Act 1981 (as amended) and s40 of the NERC Act 2006 (as amended).

If external lighting is required

WITHIN THREE MONTHS OF CONSENT: WILDLIFE SENSITIVE LIGHTING DESIGN SCHEME

“A lighting design scheme for biodiversity shall be submitted to and approved in writing by the local planning authority. The scheme shall identify those features on

site that are particularly sensitive for bats and that are likely to cause disturbance along important routes used for foraging; and show how and where external lighting will be installed so that it can be clearly demonstrated that areas to be lit will not disturb or prevent bats using their territory.

All external lighting shall be installed in accordance with the specifications and locations set out in the scheme and maintained thereafter in accordance with the scheme. Under no circumstances should any other external lighting be installed without prior consent from the local planning authority."

Reason: To allow the LPA to discharge its duties under the Conservation of Habitats and Species Regulations 2017 (as amended), the Wildlife & Countryside Act 1981 as amended and s40 of the NERC Act 2006 (as amended) and Policy 31 of the Horsham Development Framework.

Please do not hesitate to contact us if you have any queries in relation to this advice.
